PROGRAMS OFFICE

RENEWED PETITION UNDER 37 CFR 1.47(b)

To the Director of Patents and Trademarks

Sir:

In response to the Decision mailed February 1, 2008, kindly consider this request for reconsideration and the attached additional evidence. This Renewed Petition incorporates by reference the evidence and statements of the Petition for Filing Without Inventor's Signature Under 37 CFR 1.47(b) filed October 17, 2007, Additional Evidence filed October 18, 2007 and November 1, 2007, and Renewed Petition Under 37 CFR 1.47(b) filed January 3, 2008. The attached additional documentary evidence (Annex 12) provides the information lacking in the first renewed Petition (identified in the most recent Decision as item 5(B)).

Annex 12 is an affidavit from Roland Coen of Tate & Lyle Europe NV, confirming as requested on Page 3 of the latest decision (lines 17-18) that Mr. Coen personally observed Mr. Landazuri actually making the present invention.

Applicant believes that this additional evidence, when considered in combination with the existing evidence of record, satisfies all of the requirements of the code section and supplies all of the evidence identified as lacking in the Decision. As a result, the Petition should be granted and the Application accepted.

CONCLUSION

Acceptance of the petition and application are requested.

Respectfully,

A handwritten signature in black ink, appearing to read 'Cliff Hyra', is written over the typed name of Clifford D. Hyra.

AFFIDAVIT

Aalst, February 14, 2008

I, Roland Coen, confirm that I, during and as a result of my employment with the assignee, personally observed Mr. Landazuri working on the invention in the laboratory and that I have first hand knowledge of the invention being made by the inventor.

Roland Coen
